

VariScroll® Optimal/OptiCool

Heatpumps & chillers by www.Eureftec.se

Heatpumps and chillers with frequency converted scroll compressors.
Capacity ranges: 3-10, 6-14, 12-26, 18-46, 30-55, 35-65 kW (heat capacity).

Heatpumps with R134a

Electrical terminals, the VLT and the controls are separated from the refrigerant side

Extremely low sound-levels due to good insulation, double framework, soft start and STOP.

VariScroll heatpumps are designed to cover 100% of the heating and tap-water heating demand!

Every single unit is capacity-tested and optimised with the ETM-analyser
